

## **Wellesley Public Schools Asbestos Management (AHERA) – January 1, 2012**

This annual notification is required by the Asbestos Hazard Emergency Response Act (AHERA, 40 CFR part 763 of Title II of the toxic substances control act).

Universal Environmental Associates, Inc. (UEC) has been engaged by the Wellesley Public School District to generate and maintain the school department's six-month and three-year AHERA plans and subsequent re-inspections. The licensed inspector has concluded that all asbestos containing materials throughout the schools, and all suspect asbestos containing materials, are currently in good condition and do not pose a health risk to building occupants.

Asbestos Management Plans have been developed for the Wellesley Public Schools. Each building's plans are available and can be viewed at the Superintendent's Office at 40 Kingsbury Street during normal business hours. Questions concerning the AHERA plan should be addressed to the Facilities Director, who is the designated person for AHERA matters at (781) 446-6210.
